

Social Media Guidelines

At Morris Rugby, our social media platforms are designed to promote and support our club whilst helping to increase participation and recruitment.

Purpose of Social Media Use: Our social media channels will primarily be used to support and promote Morris Rugby. This includes sharing updates, celebrating achievements, and engaging with our supporters.

Governing Bodies and Leagues: In addition to club-related content exceptions can be made when representing governing bodies or leagues in select sides which include USA Rugby, Empire GU, New Jersey Rugby and EGRL but only as representatives of Morris Rugby. Any content shared will align with the values and goals of Morris Rugby. No exception will be made for any organization directly competing against Morris Rugby.

Representation of Morris Rugby: We will not highlight any individual athlete unless they are directly representing Morris Rugby in the post. This includes events, training, matches, or any official club activities.
